by H Zumaroh Â· 2012 â€” The term comes from Greek syntax where sun means "with" and tattein means "place". Etymologically, syntax means placement. The term "place" refers to the location of something. This primarily includes location and location, but also includes the placement of what is in place. For example, when we talk about the location of a tree located on the edge of a city, it is talking about the location of the tree. The word "place" is often used to describe a position in geographic space or in the sense of a position related to location. dd2bc28256
